Robert Quinlan

Junior Full Stack Software Developer

Summary Experience

I hold a BA (Hons) in Multimedia and a Diploma as a Full-Stack Software Developer, with over four years of experience as a web developer. My expertise spans project management, graphic design, web development, motion graphics, animation and film/video editing. I am proficient in HTML, CSS, JavaScript, Django, Python, React, and SQL, and experienced in Agile management and DevOps tools such as GitHub and Gitpod.

My participation in hackathons and contributions to pixel game development have honed my skills in both graphic design and web development. I am currently seeking a remote role that allows me to leverage my strengths as a graphic designer and front-end developer.
